3. Digital Marketing

Globally, over 2.3 billion people spend considerable amount of time each day on social networking sites alone. What we do? Mxa helps your brand reach out to highly targeted customers across various online platforms. Regardless of who your prospective customer is, their location or age is, we take your business to them.

Working from a strategic-creative platform, we create content and develop digital marketing experiences with elasticity—expanding and contorting to suit the shape and dimension of your business goals and consumer expectations. With our commonly used online channels being Facebook, Instagram, Twitter, LinkedIn & Google ads, it's our Agency's primary objective to help businesses like yours generate new revenue opportunities.

How we do it;

> Social Media Marketing

We generate content, design and schedule ads, monitor & correspond with your customers on Social Media. Our primary objectives here; are to create more reach, more impressions & a high conversion rate for your business online.

> Mobile Applications

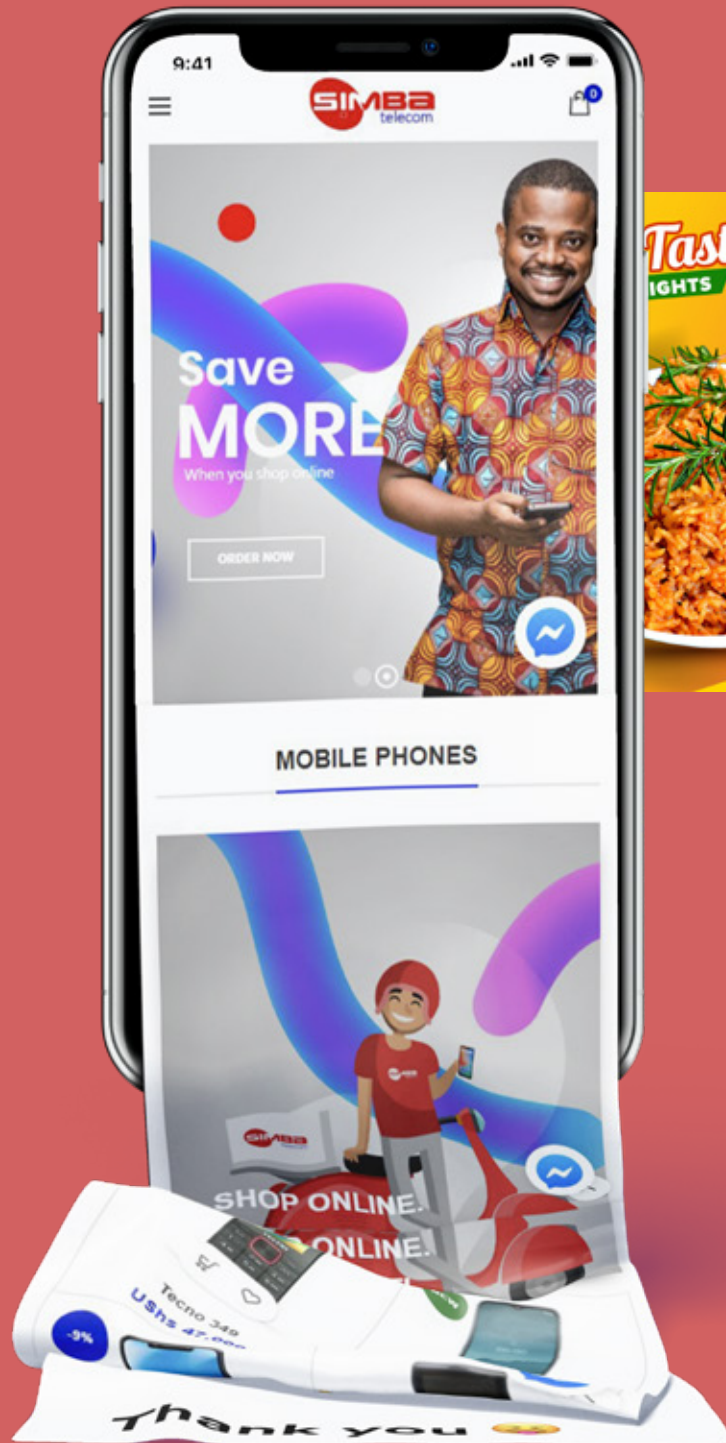

We create mobile apps with experiences that tap into your audience and grows your business online. Our knowledge spans through the entire development process, from UX Research to UX design, laying out competitive audits & interaction design.

> Digital PR & Strategy

We provide customized digital solutions & daily monitoring and updating of your brands online communication channels. We also create custom Digital strategies that your business can adopt so as to better communicate with customers online.

> Custom Ads Design

For Companies, that would prefer to manage their online ads internally, we offer custom ad design scheduled over a period of time. Most of the clients in this range already have a digital strategy, they simply need support with designing the artworks.

4. Hosting & Domain Registration

We're working with, & providing a host of our clients with a wide range of hosting solutions.

Website & Email Hosting

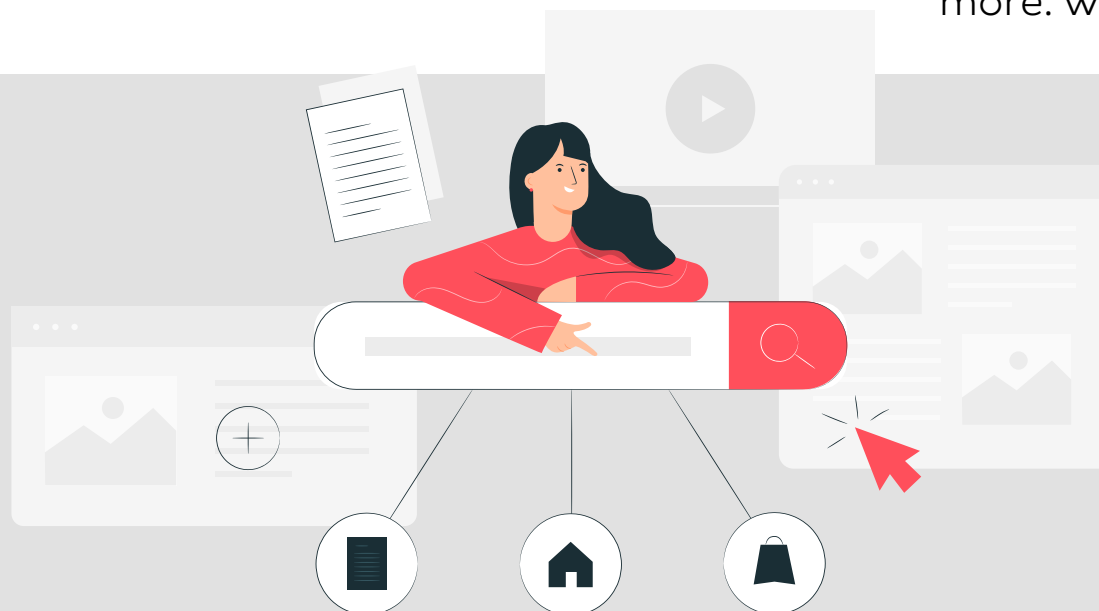

We provide fast, safe, reliable & easy to set up Linux & WordPress website hosting services. One thing we guarantee you, is support! As & when you're in need.

Email Hosting

We've set a range & ours is to provide professional email services. Depending on what the needs of your company are, we can work out an affordable package for you.
